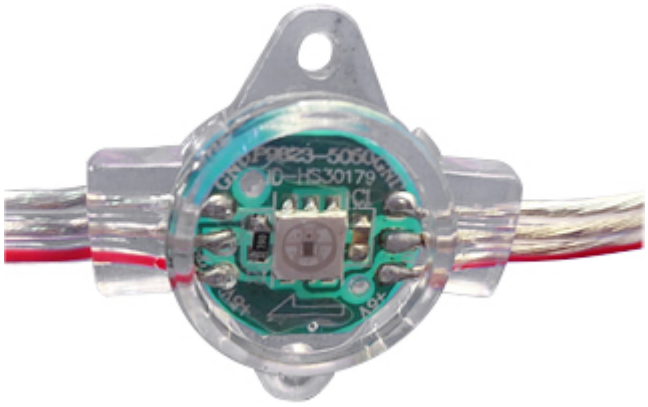
RA-5050-2812 RGB 5V



SPECIFICATION:

Color	full color RGB (WS2811 IC inside) each module as one pixel
LED Qty	1 piece of WS2812 LED; 5050 RGB LED with WS2811 chipset built-in as one pixel
Input Voltage	DC5V
Max current	60mA
Max Power	0.3W
Driver method	Constant current circuit
Dimension	16.8mm diameter
Viewing angle	150-180 degree
Protection Level	IP66
Certification	CE and RoHS
Standard connection	50pcs module per string
Standard wire length	100mm (from center to center) transparent wire
Housing	transparent cover, transparent base
Fixed way	screw
Lifespan	35000 hours
Warranty	1 year
Operation temperature	-40+50
Storage temperature	-50+60

CONNECTION:

“+” - red-transparent

DATA – transparent (center)

“– “ – transparent (outside)
